

INSPECTION AND ACCEPTANCE OF REBOUNDABLE, NON-METALLIC, DRUM-LIKE, CHANNELIZING DEVICES

GENERAL

Reboundable non-metallic, drum-like, channelizing devices intended to provide temporary traffic channelizing shall meet the requirements of [Article 4188.02](#).

ACCEPTANCE

Acceptance of reboundable non-metallic drums will be based on satisfactory test results of a preliminary sample furnished to the Iowa Department of Transportation, Office of Materials, Ames, Iowa, and the manufacturer certification statement of specification compliance. A list of approved manufactured drums based on preliminary sample results and certification documentation will be developed and maintained by the Office of Materials. This list appears in [Appendix A](#).

CERTIFICATION

The manufacturer shall provide the Office of Materials the following statement of certification:

Certification Statement

This is to certify that (manufacturer name, product number) this reboundable, non-metallic, drum-like, channelizing device meets the requirements of the applicable specification of the Iowa Department of Transportation.

Authorized Date and Signature

The certification statement shall be signed by a responsible company representative.
